OBJECTIVE

As an aspiring technophile with an insatiable curiosity and a thirst for innovation, I am fervently pursuing a Bachelor of Technology degree in Information Technology at the esteemed Gandhi Institute of Technological Advancement. My passion for all things tech, coupled with a relentless drive to push the boundaries of what's possible, fuels my desire to contribute meaningfully to the ever-evolving world of computer science.

EDUCATION

Bachelor of Technology, Gandhi Institute Of Technological Advancement   2019-2023
Relevant Coursework: Computer Science and Engineering

12th CBSE, Little Flower House School   2017 - 2018

SKILLS

Core Skills	Java, JavaScript, OOPS
Familiar	Python, HTML, CSS, React, SQL, Figma, Adobe XD, Microsoft Excel
Soft Skills	Enthusiastic, Leadership skills, Innovative, Strong communication skills

EXPERIENCE

Full Stack Java Developer Training   May 2023 - October 2023
Ducat   *Noida, UP*

UI/UX Designer   Jan 2017 - Jan 2019
W3dev   *Noida, UP*

- Designed the user interfaces for a gaming app and website.
- Successfully completed two design projects.

Service Engineer   Jan 2017 - Jan 2019
Microchip Systems   *Nagpur*

- Provided technical support and service.
- Received a Certificate of Completion.

PROJECTS

FoodHub Developed a robust food delivery app with React/Redux for the front end. Integrated Stripe for secure payments and Firebase for real-time data management. Ensured a seamless user experience with real-time order tracking and authentication. Delivered a scalable solution showcasing strong problem-solving and development skills. (Github)

SnapFusion Developed a modern Social Media application with a front-end built using React and TypeScript. Leveraged Appwrite as the backend, ensuring secure user authentication and data management. Designed interactive user interfaces for posting, liking, and commenting on content. Delivered a feature-rich social platform, demonstrating strong proficiency in web development and back-end integration. Fostered user engagement and community building in a scalable, efficient application. (Github) (Live)

CERTIFICATION

- Core Java - Intershala
- JavaScript - Geeks-for-Geeks
